## Tips For Curbside Trash & Recycling Pick-Up

- Fit all trash and/or recyclables into the appropriate cart with the lid closed.
- Trash should all be bagged and inside of the cart.
- Recycling should be loose and placed inside the cart.
- Set the carts out the night before or before 6:00 AM on your service day.
- Place carts no more than two feet off the road or just into the street.
- Carts should open towards the road with wheels towards the home/business.
- Place the carts where they will be free from obstructions, at least 5 feet from any other objects & each other.
- Keep the service area free from obstructions.
- Do not park in front of the service area.
- Minimize odor by cleaning the container with bleach periodically.
- Minimize odor by bagging all trash (Recycling items should not be bagged).
- Rinse out recyclables before placing them loose, **inside** of the cart.
- All cardboard should be cut or broken down & fit into Recycling cart loosely.
- Shredded paper should be placed into a clear bag and set inside the recycling cart.
