Syracuse Youth Athletic Complex

The Syracuse -Wawasee Park Foundation, the Town of Syracuse Parks, the Wawasee Kiwanis Club, Wawasee Youth Football and the Town of Syracuse have begun an effort to build a youth athletic complex in Syracuse. This athletic complex will be built on town owned property in the area commonly known as "Vega Field" (which was previously owned by the Wawasee School Corporation).

When completed this athletic complex will provide a minimum of four baseball/ softball fields and one football/multipurpose field. These fields will allow the organizations which run the local football, baseball, softball and soccer programs an alternative to using the Wawasee School Corporation facilities for all practice and game opportunities. While not all programs and activities will be able to run at this new athletic complex at the same time, different organizations will be able to use the facilities throughout the year for the betterment of their respective programs and the community as a whole. Currently, "Vega Field" includes a track that the Syracuse Elementary School uses during the fall and spring for gym classes focusing on track events. While current plans do not include a track, Syracuse Elementary School would still be able to use the new complex for classes or other events.

The Syracuse -Wawasee Park Foundation has begun fund raising for this project and with the help of generous grants from both the Kenneth and Lela Harkless Foundation and the K 21 Health Foundation, this project is off to a great start. But there is more to do and you can help with this project by donating dollars toward the K21 Health Foundation matching grant, or by donating your time during the construction of the new fields.

For more information about this project contact: Chad Jonsson, Park Superintendent 574-457-3440 or visit the Youth Athletic Complex web page at www.syracuseparks.org.
